

NOTES FROM 1965

If base reading increases bring reading back to what is considered normal base reading. Commence corrected reading by subtracting from beginning from 0 to Total Correction

If reading decreases bring it back to normal - (assumed normal) by adding beginning from end back to zero.

DANDONNEAU	HENRY	CENTON

British Summer Time (one hour ahead of Greenwich Mean Time) will probably begin at 2 a.m. on 27th March and end at 2 a.m. on 23rd October, but these dates had not been confirmed at time of going to press. Times in this diary are expressed in GMT, with BST allowed for throughout the above period. Astronomical material is reproduced from the *Nautical Almanac* by permission of the Controller of H.M. Stationery Office.
